

MACO ELECTRICS

CAPABILITY STATEMENT 2023

OPUS
Broadbeach, QLD

OUR MISSION

We endeavour to focus on projects built by high quality construction companies, where we can offer a direct form of high quality design, installation and value management solutions of all electrical works.

ABOUT US

OUR COMPANY

Maco Electrics is a Gold Coast based electrical contracting company offering a wide range of designed industrial, commercial and residential services.

OUR WORK

Commercial construction with Design and Construct workflows, maximising client savings through value engineering and management.

OUR TEAM

Highly skilled team with large varied background in delivering residential and commercial projects throughout Australia.

OUR CULTURE

Maco Electrics places strong emphasis on being a family-oriented company. We strive as a team to deliver amazing projects and we are passionate about staying truly connected to our clients and staff.

OUR VALUES

INTEGRITY

Doing what is right and doing what we say we will do.

RESPECT

Embracing openness, trust, teamwork, diversity and relationships that are mutually beneficial.

PERFORMANCE

Achieving superior business results by stretching our capabilities.

SUSTAINABILITY

Putting health and safety first, being environmentally responsible and supporting our communities.

SIMPLICITY

Focusing our efforts on the things that matter most.

ACCOUNTABILITY

Defining and accepting responsibility and delivering on our commitments.

OUR COMMITMENT

WORKPLACE HEALTH & SAFETY MANAGEMENT

Maco Electrics is fully committed to:

- ensuring a safe workplace for its employees
- continually striving to improve safety performance
- incorporating a cultural mindset in the company to create a safe work environment

A safe workplace is achieved by identifying and rectifying any unsafe work conditions or practices, as well as promoting a safe working environment. Our team recognises that in order to achieve an outstanding safety performance and best practice, we must have a proven systematic safety system, committed management and a proactive workforce.

Maco Electrics has implemented a comprehensive safety system across the business in full compliance with the Workplace Health and Safety legislation. All employees and sub-contractors are made aware of their responsibilities through company and project inductions, toolbox meetings, Safe Work Method Statements (SWMS) and/or Job Safety and Environment Assessments (JSEA). Safety audits/inspections are conducted at all Maco Electrics workplaces.

ENVIRONMENTAL MANAGEMENT

Maco Electrics recognises the importance of both potential and existing factors related to our company facilities and project sites, and acknowledges the influence they have on the local environment and communities.

Our team recognises that this not only a social responsibility but also a legal requirement, therefore at its company facilities and operations it will foster positive aspects of no incidents and a culture for resource management.

MAINTENANCE

Maco Electrics provides a complete electrical maintenance service for multiple high-rises and commercial clients across South East QLD and Northern NSW. With an experienced team we can facilitate all works, from changing lights to maintaining switchboard changeovers, and we offer a varied range in energy efficient solutions for residential and commercial buildings.

HIGH-RISE BODY CORPORATE MAINTENANCE

- Emergency lighting testing logbooks
- Maintenance for QBCC certification
- Cost effective repairs or replacements
- RCD testing for common areas
- Switchboard inspections and changeovers
- Replacement of existing carpark lighting to LED fittings with microwave motion sensor
- Savings on both consumption and replacement of fittings
- LED downlight changeover with 80% energy savings
- Power factor correction units
- 24HR emergency callouts with direct line to on call staff
- CCTV camera installations and repairs
- DATA- VLAN Networks
- WAPS wireless access points for internet access

COMMERCIAL SHOPS AND RESTAURANTS

- Safety switch installation
- LED Downlight Conversion: New LED technology is brighter and can provide up to 80% saving on power usage compared to older style down-lights
- Matching of existing holes in ceiling to avoid patching and repainting
- Dimmer installation
- Switchboard upgrades
